

IGFP Conference 2018 - Program

Friday 9th March of 2018		Time	Duration
Block 1		10.00 - 10.55	
Englisch Lauritz	Morphology of the pulp spaces in incisors - Distances of the pulp horns to the facies occlusalis and facies labialis	10.00 - 10.20	20
Rott Patricia	Morphology of the pulp spaces in incisors - pulp horns, pulp channel and apikale foramina	10.25 - 10.45	20
Discussion		10.45 - 10.55	10
coffe break		10.55 - 11.30	
Block 2		11.30 - 12.50	
Wearing Dale	Equine Ondontoclastic Tooth Resorption and Hypercementosis, EOTRH- retrospective observations	11.30 - 11.50	20
Schellenberger Frank, Dr.	EOTRH - clinical diagnostics - basis for the treatment plan	11.55 - 12.15	20
Ros Katharina, Dr.	Management of the EOTRH – findings and interpretations from practice	12.20 - 12.40	20
Discussion		12.40 - 12.50	10
lunch break		12.50 - 14.30	
Block 3		14.30 - 15.25	
Novales Manuel, Dr.	Comparison of X-ray and CT of Incisors	14.30 - 14.50	20
Stoll Manfred	Assessment of incisors with open pulp channels	14.55 - 15.15	20
Discussion		15.15 - 15.25	10
coffe break		15.25 - 16.00	
Block 4		16.00 - 17.20	
Pollaris Elke, M.Sc.	Towards a better understanding of occlusal fissures in the equine cheek tooth: prevalence and association with dental wear	16.00 - 16.20	20
Madden Richard, PhD	Earth Surface Processes and the High-Crowned Teeth of Horses	16.25 - 16.45	20
Niehus Ralf	Working with short handpieces	16.50 - 17.10	20
Discussion		17.10 - 17.20	10

IGFP Conference 2018 - Program

Saturday 10th March of 2018 **Time** **Duration**

Block 5	Title of the lecture	9.00 - 10.20	
Steinhofer Jürgen	Enforce claims legally secure	9.00 - 9.20	20
German Rebecca, PhD	Weaning and change from an infant diet to an adult diet	9.25 - 9.45	20
Moore Nick, DVM	Equine Developmental Defects of Enamel	9.50 - 10.10	20
	Discussion	10.10 - 10.20	10

coffe break

10.20 - 10.55

Block 6	Title of the lecture	10.55 - 12.15	
Lewin Walter, Dr.	Molar extraction versus tooth preservation or even reimplantation - a difficult decision	10.55 - 11.15	20
Zwick Timo, Dr.	The treatment of a caudal orosinuidal fistula by means of a externally fixed bone cement bridge after pretreatment via a transsinuously subcutaneously anchored implant	11.20 - 11.40	20
Hole Sam, B.Sc. (Hons.)	Review of wolf teeth and their extraction	11.45 - 12.05	20
	Discussion	12.05 - 12.15	10

lunch break

12.15 - 13.45

Block 7	Title of the lecture	13.45 - 14.40	
Herold Isabell, Dr.	The temporomandibular joint of the horse from the point of view of the acupuncturist	13.45 - 14.05	20
Ryhner Thea, Dr.	Gundelrebe as a cause of hypersalivation in grazing horses	14.10 - 14.30	20
	Discussion	14.30 - 14.40	10

coffe break

14.40 - 15.15

Block 8	Title of the lecture	15.15 - 16.10	
Steinfort Saskia	The equine gingiva: macroscopic evaluation of clinically detectable parameters	15.15 - 15.35	20
Staszyk Carsten, Prof. Dr.	Malformed teeth: What does the term odontoma mean?	15.40 - 16.00	20
	Discussion	16.00 - 16.10	10

Adoption of the participants
